Customer Reviews

"Big Al" has done it again. Compelling and captivating us with his wit and wisdom. For those of us

that are learning the skills to build our Network Marketing Business, this is a must read. It provides us with the tools for INSTANT SUCCESS to fulfill our dreams. The ideas presented are priceless!

As the title says, this book teaches 26 ways a person can launch and build their network marketing business easily. All are based on solid common sense backed by years of experience. If you are new (or even not-so-new) to network marketing, this book should be read and studied carefully... don't worry, it is an easy read. Now, get out there and sell something!

After waiting a month for this book to arrive, I am aghast at the product I received. 1. I received an outdated version. Outdated by ELEVEN YEARS. 2. The book has literally fallen apart. I cannot imagine how anyone thought it would be acceptable to send this. I'm sure this is an anomaly but I would appreciate a refund or a corrected replacement ASAP!

Tom has the knack for giving simple ideas that we need to motivate ourselves to implement. Because they've been proven to work so the only thing missing is us trying. Have to try, or you'll never get your own results. Like looking at a coffee bean vs having a cappuccino. The raw material has potential, but the application of effort and specialised knowledge helps you enjoy the full value contained within it.

I in the past have struggled with marketing and this is great.. I love books like this that jumpstart your ideas for making 26 instant marketing ideas!! This is the book for you if you want to build your network marketing business.. Again, I love to work on my networking business and will keep working until I get the business that I want!

Every good idea is worth money; some ideas a lot of money. That's where this book can help as you study it, note the suggestions that click with you, and rework it to fit into your network marketing endeavors. Sound bites--that's something you need! You'll discover other very useful hints among the 26 offered. But some ideas and examples could use a rewrite from this 1990's edition of this book. For instance, who do you know who uses pagers and FAXing? But nothing on emails and social media. I'd love some ideas on how to use those in MLM. Yet, I recommend this "classic" MLM-building book because you'll get more than enough ideas you can rework for today's marketing world.

Information was outdated. Easy read.

Many people can't attend Olive • Power Marketing & Promotions Workshops, but they want to learn how to supercharge their network marketing business. Tom "Big Al" Schriter lays it all out in this book. Awesome Training!
