This is one of the most powerful Law of Attraction books you will ever read. It was written by a lottery winner who understands how the Law of Attraction works and how it can be used to attract money. The Law of Attraction is not a fly-by-night fad, but a powerfully creative force that can give you the life of your dreams if you know how to use it, so the better you understand this power the faster it will manifest your desires. Customer Reviews

I am an author of a audiobook that covers a lot of what Mr Coronado covers in this book and I have to say what an outstanding book this is.I bought it out of curiosity and stayed for the show. If you are

looking to change your life then make this book a part of it, everything he speaks about here is the truth and nothing but the truth, but here's the gift, you would have to purchase at least three other books to get the same information that you get here.

This book provides what many other LOA books lack...how-to information. Many are misled to believe that applying The Law involves sitting and doing nothing, when in fact it is the opposite. The process of reorganizing and harmonizing one's thoughts requires action, discipline and focus. It is indeed a science. Mr. Eddie Coronado has freely shared techniques such as creative visualization to assist those who are serious about changing their lives and harmonizing themselves with Universal Law. It's a must-read!

I've read many law of attraction books including The Secret by Rhonda Byrne. The content in this book opened my mind even further. I gained a better understanding of what creative visualization looks like and how it is done. Thank you Eddie for sharing this with me :)

I was debating on getting this book since I have read so many law of attraction books. This one is really awesome! I loved it. Detailed and easy to read. I am sure you COULD win the lottery DOING the techniques in the book. Information was great and I will be using it for my own lottery win :)

The Law of Attraction aka The Secret lead me to this book and I am very grateful for that. I just finished Eddie's book and I have to say that I am impressed. I chose the five star rating because I believe that his advice when followed as he has outlined it will lead you to wealth and an overall better outlook on life. I am a person who has been using the Law of Attraction for about 3 years now with missed results. After reading this book I can see where I have made many mistakes in the past. I plan to use what I learned from this book to really get what I want and make my dreams come true. The biggest mistake that I made in the past was making this a hobby (doing the affirmations, visualizations, feelings and so on once in a while) instead of making it a way of life (doing the affirmations, visualizations, feelings and so on on a daily basis). If I can find time for tv and newspapers everyday then I can find the time to practice the Law everyday. Thanks to the Law of Attraction and this book I am now ready to make this a way of life.

Eddie Coronado provides a clear, concise and an all-embracing foundation and a solid introduction to the Universal Law of Attraction and how to Manifest Abundance and or any thing you emotionally

desire. It was like reading Law of Attraction Cliff notes that explained every thing and kept you engaged. The Universal Law of Attraction was never explained so heart-felt. I highly recommend this book for any one who wishes to attract success both financially and personally!

Before buying the book I questioned what advice a book costing only \$3 could offer me. But to my surprise I got more than I bargained for.. This book teaches you how to approach life.. It is under price for what it offers. For those who are still searching for a filler for that " void" read this book. It is an easy read and quite fulfilling. You may not win the lotto but win an even bigger prize....knowledge and understanding!!!! And we know what we can do with knowledge....

There are enough small nuggets of gold in this e-book to look past it's small size.I would have loved to see more detail in the authors personal LOA methods, but for under \$3.00, it's definitely worth the money.Thank you Mr. Coronado
