This book actually told me information that I needed to know such as how to build a passive income and the obstacles that would get in my way when trying to build this passive income. I gained some ideas and will want to try one of it. This book includes 4 business models of passive income: 1. ONLINE PUBLISHING 2. DROPSHIPPING 3. FBA - Selling Physical Products 4. MERCH

The book lets you have an idea about possible passive income business ideas. There are four models discussed in the book: publishing a book in , Dropshipping, selling items in through FBA, and being a merchant and sell your own designed shirts on . The book provides tips on how to start each type of business and provide a bird's eye view about these businesses. The book contains useful information about each model and provides tips on how to start those businesses. The things discussed here are just the basics and I recommend finding additional sources for one particular business model that you're interested investing into.

I started reading up on passive income streams by chance from browsing the internet, and it really got me excited about the possibilities. However, although the internet had some great info, it was all over the place and I felt like I was finding a needle in a haystack. So I decided to get a book on it to make it easier to understand. This book was at a great price and I really liked how it was structured. It was like having a mentor in a book where a lot of my questions were answered, and I appreciated that it took you through only a few forms of passive income so it's not overwhelming.

In today's world, mindsets have changed from working a 9 to 5 desk job to a more flexible form of income. Passivity and having multiple forms of income are essential in living a life of financial freedom. The author does a great job at illustrating different passive income ideas and how you can execute them successfully. If you are looking to make passive income and potentially quit your day job, give this a shot.

If you don't want to be a slave of the 9 to 5 rat race, spend more time with your loved ones, have freedom and be your own boss, you should try to have Passive Income, In this book, you will find 5 Passive Income Business Models. You can try them all or chose one and focus on that one. I have

two different passive income sources so if somethingâ€™ bad happens to one of them, I will still have the other one to rely on.

I always wanted to begin making money online and purchased this book to learn some new ideas. This book teaches 4 models for making a passive income online. I liked that each of the models is very comprehensively covered and each of the models seems realistic for making money. I am excited to try what I learned.

I have always been a seeker of different ways to receive income passively. I think that this is the best way to work and get money because it can turn into something that you quickly don't have to work for and receive every year. This easy to read guide was very informative and allowed me to understand in a better sense, what it means to get passive income. As well as opened me up to new opportunities that I'm ready to embark upon and try out!

I got this book to know how I can create passive income online. After reading this book, I found that the author has shared great tips for beginners that can easily help them to make some money which can even increase to more money by giving some little efforts. The one I found very interesting is Merch. I am definitely going to try one of these models.
