Thou Shall Prosper is a fascinating exploration into wealth creation amongst Jews and the values

within Jewish communities that encourage financial success. I enjoyed it so much, I originally posted this review at my blog CapitalismSaves.com. This book is organized into 10 separate chapters, titled commandments in imitation of the Laws given to Moses. Written by Daniel Lapin, an Orthodox Jewish Rabbi motivated by a desire to research and catalog the cultural traits that have contributed to this, making them available to all people. The book promotes what Rabbi Lapin calls Ethical Capitalism. I have always been fascinated by the subject of Jewish success. It only takes a little attention to notice that Jews are disproportionately successful in business and finance than any other ethnic group in the United States, if not the world. As Rabbi Lapin explains, this is not to suggest that there are no poor Jews. But as the most consistently oppressed people throughout 3,000 years of history, the Jewish people could easily have been expected to cease existing altogether. But they haven't, and wherever Jews are afforded the slightest opportunity they tend to thrive. Rabbi Lapin points out that Jews represent less than 2% of the American population, but in any given year may represent as much as 25% of the names on the Forbes 400 list of wealthiest Americans. Jewish households are also twice as likely to be wealthy as those of non-Jews. This is a remarkable phenomenon that deserves to be explored and hopefully explained. Anti-Semitic conspiracy enthusiasts might see all this as evidence of Jewish misdeed in acquiring wealth.
