Dr. Z On Scoring: How To Pick Up, Seduce, And Hook Up With Hot Women

Synopsis

Victoria Zdrok, J.D., Ph.D., is a clinical psychologist and certified sex therapist, and the only woman in history to be named both Playboy Playmate of the Month and Penthouse Pet of the Year. She is the ultimate insider, and this is the comprehensive guide to every male fantasy: that of meeting, hooking up with, and dating attractive and alluring women, from the girl next door to the centerfold of your dreams. Dr. Z grounds her methods in scientific research and field-tested facts, using her years of experience in academia and as one of the world's most popular models to formulate a seduction manual complete with all the secret, sure-fire tips men have always wanted to know (and women hoped they would never find out). Dr. Z on Scoring contains illuminating lists (from things to avoid talking about on a first date to ways to last longer in the sack), confidence-building exercises, and a step-by-step strategy to help any man not only find and talk to his dream woman but also to take her to bed - and satisfy her once he gets there.

It amazes me how stupid society can become over something as basic, and in the grand scheme of things, shallow as eye candy. For all the five star positive reviews posted over this "PHD" and her book of "professional advice," allow me to shed some light on this woman as the psychoanalyst fails to honestly psychoanalyze herself. 1.-She married a criminal defense attorney for the mafia solely to obtain her green card. 2.-In the numerous times she has been to court over past marriages and lawsuits, a judge has been quoted as saying her testimonies are "less than truthful." 3.-She has posed nude with both her elderly mom (YUCK!) and her sister.... I don't know how in the hell they do

things in Ukraine, but ladies, would YOU want to pose nude with your mom or make out with your sister? Hmm... did her study in psychology touch the subject of incest? 4.-Although in one chapter of her book she says the answer to the question of "does size matter?" is a definite, overwhelming "no"; she can still be found on infomercials at three and four am on various cable channels for "male enhancement" tablets. In another words, if the price is right, she's willing to throw the ethics of being a doctor out the window. 5.-Like so many "original" revolutionaries before her, she has come out and attacked -insert negative tone of voice here- Western ideology; specifically in regard to Catholicism. Even going so far as to say that St. Thomas Aquinas and other doctors of the Church were bisexual and had guilt complexes. It's very noble indeed to attack the dead as they are unable to defend themselves. On an added note, let's put the shoe on the other foot with this one--- Dr. Z, real name Nika Victoria Zdrok, boasts being both a Playboy playmate and Penthouse pet of the year.

The main focus of this book is to reassure the male readers that there are beautiful women out there who will be attracted to any kind of physical or psychological anomaly. The message that resonated from the book seems to be a few short tips on how to meet women, sometimes by treating total strangers as higher class citizens, coupled with the reassurance that there's someone out there for everyone, no matter what your looks, interests, career, or personality. And if you're looking for a specific woman, you should find out her hobbies and her past boyfriends and reinvent yourself to match them. She tells readers to keep trying; a rejection is simply a sign of a bad fit rather than a honest testimony of the person's approach. This is a good book for reassuring people who feel hopeless after their last break up, but not a good resource for a person who's wondering why their past relationships have not held on. Dr. Z seems to tell readers the same kinds of things a relationship counselor picked out by your ex-wife would say. By the way, did anyone else notice how many of the good reviews cited 'easy to read' as one of the pros of this book? She probably wrote the book with good intentions. Or maybe she wanted to jump on the recent bandwagon of best-selling pickup books. But honest or not, this book was written for men to find women, from a woman's experience. Although she has a PhD in Psychology, her suggestions are not based on medical research. Although she references popular pickup artists, her ideology diverges from theirs. When deciding whether or not to buy this book, you should remember that she writes based upon her own experiences, expectations, and desires. I assume she has never tried any of the things suggested in this book to pick up other women.
