## Customer Reviews

Fifteen years ago, I moved across the country with my then-boyfriend (now my husband) and began experiencing crippling anxiety attacks as a result of leaving everyone and everything with which I was familiar. That's when I first encountered Dr. Joseph Luciani's work in *Self-Coaching: The Powerful Program to Beat Anxiety and Depression*. At the very least, it saved my relationship but it is not an exaggeration to say that it saved my sanity. At the time, I pondered how I could apply the principles from this book to my ongoing issues with weight but the thought was set to the side as life moved forward. Fast forward to current day and I no longer have to wonder. *Thin from Within* uses the principles of Self-Coaching via Self-Talk to help conquer issues with weight. The content of the book focuses on three "enemies" of weight loss and how to deal with them within yourself. No outside counseling or therapy needed. There is no diet endorsed in the book (although Dr. Luciani does mention his own experience and diet). The content around Self-Coaching does focus on

eating but the concepts are easily applied to struggles with getting oneself to engage in physical exercise. One thing I appreciate about the content of the book is how intelligently written these concepts are. I may struggle with my weight and overeating but I also hold multiple masters' degrees and have read other books that talk down to the reader as though weight struggles are a result of lack of intelligence. Still, the content is not out of reach of those without advanced education.
