# Zombie Fallout: Zombie Fallout, Book 1

## **Synopsis**

It was a flu season like no other. With the H1N1 virus running rampant throughout the country, people lined up in droves to try and attain one of the coveted vaccines. What was not known was the effect this largely untested, rushed to market, inoculation was to have on the unsuspecting throngs. Within days, feverish folk throughout the country convulsed, collapsed, and died, only to be reborn. With a taste for brains, blood, and bodies, these modern-day zombies scoured the lands for their next meal. Overnight the country became a killing ground for the hordes of zombies that ravaged the land. This is the story of Michael Talbot, his family, and his friends: a band of ordinary people trying to get by in extraordinary times. When disaster strikes, Mike, a self-proclaimed survivalist, does his best to ensure the safety and security of those he cares for. Book one of the Zombie Fallout Trilogy follows our lead character at his self-deprecating, sarcastic best. What he encounters along the way leads him down a long dark road, always skirting the edge of insanity. Can he keep his family safe? Can he discover the secret behind Tommy's powers? Can he save anyone from the zombie queen? Encircled in a seemingly safe haven called Little Turtle, Mike and his family, together with the remnants of a tattered community, must fight against a relentless, ruthless, unstoppable force. This last bastion of civilization has made its final stand. God help them all.

## **Book Information**

Audible Audio Edition

Listening Length: 10 hoursÂ andÂ 30 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Tantor Audio

Audible.com Release Date: March 27, 2012

Best Sellers Rank: #12 inÂ Books > Audible Audiobooks > Fiction & Literature > Horror #44 inÂ Books > Audible Audiobooks > Science Fiction #59 inÂ Books > Science Fiction & Fantasy > Science Fiction > Post-Apocalyptic

## **Customer Reviews**

First and foremost, this book was FREE! With that being said, it is a great book. I laughed at all of

the dialog and first person commentary, whether said out loud or internally. The primary first person thought process was hilarious and real. As for the many reviews B!+ h!ng about poor editing or spelling... this is written as a journal and many, MANY, people are poor spellers, but also remember... This Book Is FREE! Quit complaining. Many authors are suffering through poor editors and less than stellar editing. This is a great zombie book, that not only addresses the loss of community, loss of friends/family, choices and decisions (whether good or bad), but also throws in how people adjust to these changes. Some people freeze, some take charge; others crack emotionally and/or mentally, and some that capitalize on being sick and/or depraved; there are people who want to blame others, while others want to control others; there are leaders and then followers; there are characters you can't help but like and others you'd love to throw out for the zombies to feast on; but on top of it all there are those moments where we could become lost in our own thoughts, and yet those moments where a hilariously funny/sick thought might cross our minds. It's all in this story, which by the way, is a full size novel. It could be a stand alone, but would leave you wanting to know... did they all live happily ever after or what tragedy was awaiting them next. I loved the humor and my son had to know what was making his mom laugh so hard tears were streaming down my face. I would read him a clip and watch him start laughing just as hard. It's a zombie story that starts with a CDC rushed 'oops,' in a plausible scenario. It evolves into community survival and family survival.

If you like horror or zombie (fiction) then you will love this book/series. When reading the reviews I loved this comment from one fan "I get a sneaky suspicion that in 20 years' time we'll all be talking Romero vs. Tufo"; the fact that in the UK alone he has 140+ and USA is 575+ tells you what a great book this is. Mark Tufo introduces you to a family struggling to survive during the apocalypse, the love shown amongst them really marks this out as a "more than horror book", it also has SO many other elements to it. It is written from Mike Talbots PoV, with some other diary entries thrown in for good fun, his wife, Tracey, especially makes me giggle. It is not purely a diary/journal though, so don't be put off. The humour is a large part of the story; the Talbotisms really guide you through some of the most horrific descriptions of the start of ZomPoc that I have ever read. The scares and horror scenes are, unfortunately, all too believable and the route of initial infection is personally terrifying. Many times you are left on tender hooks as the Tufo family seems to get/put themselves into some very butt clenching scenarios. As others join the group this seems to multiply as Talbot has a way of antagonising people! The climax to this first book is pantwettingly scary; Eliza is in a realm of her own. It's hard to say more without giving the story away, particularly as I know how it

progresses through the next 6 books, and onto Lycan Fallout. As a side note, Mark Tufo is very involved with his fans and enables you to comment and ask questions on Facebook his page, often having random Unfair Competitions of the day to win all sorts of stuff you never knew you REALLY wanted.
