Millionaire Mindset: Habits And Simple Ideas For Success You Can Start Now

MILLIONAIRE MINDSET

Habits and simple ideas for success you can start now

Synopsis

Discover the ideas that will turn you into a millionaire and give you financial freedom. Making your dream a reality This book is written for those who understand that they can achieve success through a positive mental attitude but are ready to go beyond visualization and are looking for a practical guide to making the transition from visualization to actualization of becoming successful. The information in this book can be applied to any field of endeavor to achieve success. At almost twice the length of competing books in its genre, not only will Millionaire Mindset guide you through the most important traits and habits of millionaires, but it contains a bonus section with practical ideas that is the length of most books in the genre, providing exceptional content and unsurpassed value for your money. This book will help you master the game of money. The problem with most success books Most success books focus only on positive thinking. Listeners are often left charged and rejuvenated, but after years of "thinking to grow rich", sometimes very little progress is made in life. The majority of other books in this genre contain the same recycled content (such as the law of attraction). This book is different. This book is a more pragmatic, in-depth look at the millionaire mind and strategies. This book will look at some of the most important traits of millionaires and their habits, but it also looks at some of their most powerful wealth-building strategies. This book goes beyond books like Money: Master the Game and provides a more powerful, in-depth look into how wealth is generated.

Best Sellers Rank: #48 in Books > Audible Audiobooks > Business & Investing > Economics
#58 in Books > Business & Money > Economics > Microeconomics #753 in Books > Business & Money > Small Business & Entrepreneurship

Customer Reviews

'The Millionaire Mindset: Habits and Simple Ideas for Success You Can Start' is a concise and well-written guide for getting familiar with a mindset of fearlessness, success, and wealth-building. The book has often reminded me of the writings of Wallace D. Wattles and William Walker Atkinson; I just got a felt-sense that the author is familiar with New Thought literature, and has been inspired by it. But on the positive side I would like to note that he did not exhibit the habitâ "which I found disturbingâ "of Wallace D. Wattles to say things like â ^you only need this book, do not look further,â ™ which is an unnecessary and often unwelcome admonition. I personally was not inspired by Wattlesâ ™ books, rather intimidated by his very outspokenly decisive and â ^ultimateâ ™ style. The present book doesnâ ™t fall in this trap; itâ ™s written with respect of the reader, and in a much more humble tone. It also quotes many other books. I found the book very orderly in its conception. Part One presents the core of what the author calls â ^Millionaire Thinkingâ ™ and mission-critical values such as time management, decisive focus, persistence, resilience, while Part Two â ^Millionaire Purposeâ ™ deals with delayed gratification, and purpose. While I liked the entire book, I found Part Two especially captivating. What the author says here about â ^delayed gratificationâ ™ is proven by evidence from child psychology, in that children who are early aware of the need of delayed gratification score much higher in the success ladder later on in life. The author quotes several research studies that prove his point. The third part is a very handy and pragmatic listing of various wealth building strategies, from affiliate marketing over real estate to options trading.
