# Sculpture Casting: Mold Techniques And Materials: Metals, Plastics, Concrete

## Synopsis

The studio edition of "CASTING SCULPTURE" explains in detail traditional and modern systems for mold making and casting. Demonstrations are clearly illustrated through 264 pages and 457 photographs with step-by-step procedures of various processes in metals, plastic, concrete, etc. In addition, finishing techniques, the making and use of tools and safety procedures are illustrated. Working methods by various artists will help the reader appreciate how others have solved many of the problems that arise in sculpture casting. This book is intended for the student and the professional artist/sculptor. Many examples of finished works give ample testimony to the validity of the casting method for contemporary sculpture. For over 50 years, author Dennis Kowal has contributed his working life to creating prototypes and human scale public sculptures. Lectures, exhibitions, family and fishing all contribute to that end. Alive is good!

## Book Information

Paperback: 276 pages

Publisher: CreateSpace Independent Publishing Platform (December 14, 2010)

Language: English

ISBN-10: 1453876170

ISBN-13: 978-1453876176

Product Dimensions: 7 x 0.6 x 10 inches

Shipping Weight: 1.3 pounds (View shipping rates and policies)
