Japanese For Dummies

Synopsis

Japanese is a wonderful language, very different from European languages. It is also the gateway to the rich culture of the exciting and complex island nation of Japan. Some people get intimidated by the prospect of speaking Japanese—worried that it’s just too complex and different—but these fears are unfounded. While you can devote a lifetime to the study of this or any language, picking up the basics of Japanese doesn’t require any more than an interest and a willingness to try something new. *Japanese For Dummies* has everything you need to get off the ground with speaking the language. Author and Professor of Japanese Eriko Sato starts you off with the essentials of grammar and pronunciation, giving you a working sense of the language, before showing you Japanese in action. You’ll then explore vocabulary and expressions through dialogues taking place in situations such as: Introductions and greetings Eating and drinking Shopping Exploring the town Talking on the telephone Asking directions Getting around Staying at a hotel You’ll also discover social customs, formalities, and manners, from how and when to bow to how to unwrap a present. Whether you simply want to introduce yourself to the Japanese language, say a few words to a neighbor or coworker, or you’re planning a major trip or study abroad in Japan, *Japanese For Dummies* will enable you to get the basics fast and work towards your own goal at your own pace. You’ll also find out about: How to use karaoke to help you learn Japanese Movies that will introduce you to Japanese culture and language Learning Japanese the “gourmet” way When ignoring “no, thank you” shows good manners Proper table manners Proper body language How to sound fluent And much more! With helpful vocabulary summaries, a mini-dictionary at the end, and an audio CD full of conversations and pronunciations, *Japanese For Dummies* assumes no prior knowledge of Japanese on your part—providing the perfect guide for a quick-but-thorough, lighthearted-but-not-lightweight introduction to the language.

ASIN: B0016P8BC2

Best Sellers Rank: #1 in Books > Audible Audiobooks > Language Instruction > Japanese #452 in Books > Audible Audiobooks > Nonfiction > Reference #119353 in Books > Reference

Customer Reviews

I just received my copy of this book yesterday and I think that it's wonderful! It's difficult for me to learn on my own using a book, but like all the other Dummies books, everything was simple and I was able to understand it well. I ordered this book mainly to get a laugh from it, not expecting to REALLY learn everything there is to know about Japanese. Well, within the first 100 pages, I got my laugh. In the section talking about eating, the author says "If you are eating at home, get it [missing condiments, table settings] yourself, or if you have children, ask them to get it for you." I got the laugh I expected from a Dummies book. Also, in the introduction, the author makes some assumptions on the reader. The author says flat out that this book is not made for the people who want to become professional translators or expect to become fluent from the book alone. It's simply to learn the basics of spoken Japanese language and use the knowledge as a stepping stone to more learning. But other than that, there's clear explanations for verbs and their basic usage. There was no unnecessary stuff to confuse the reader with although the different forms of verbs may seem intimidating. The vocabulary used is very basic and far from complete, but it's enough to get by with. There is a mini dictionary in the back of the book and it's just that: mini. I suggest you to grab yourself a good dictionary. This book is pretty good, but it doesn't teach anything about writing. There is not a single kana in the book so those of you desiring to learn written Japanese should not buy this book unless you want to reinforce your grammar and speaking. This book concentrates mainly on speaking putting a great deal into the pronunciation of words.
