If you are an online entrepreneur struggling to find success, then you do not want to miss this book. The internet world is just like the ocean, so vast and often it is difficult to find the best fishes that are high in value. Natalie has done a wonderful job to show you how to select the fishes. I had always believed that having an email list and a website is crucial. This book proves that it is otherwise. Other tips are the three golden rules when choosing a niche and useful criteria that qualify niches as highly profitable. With three mega niche which is drilled down to another ten sub-niches, I am sure you will find at least one or two that you can connect with and implement. This book will save you precious time and money. Grab your copy now so that you do it right the first time and you will not "drown in the ocean".

I was looking forward to reading this book since I thought it would add to my knowledge. The ten niches were SO BROAD - and the advice! - every link was a big sales pitch to buy something. Don't get me wrong. I am not against purchasing valid products, but this did not give me the feeling of - oh yes! This was such valuable information - I should buy this to get even more advice. MY ADVICE: check out the Screw the Nine to Five podcasts - this couple and the folks they interview are a wealth of information about niche marketing.

I found Natalie Hall's "Mega Profitable Niches for Your Online Business: 10 Powerful Niche Market Opportunities that You Might be Missing" - refreshingly different from other books I've read on the subject. Hall can write about this because she has successfully identified and exploited profitable niches in her own business. She delves into the subject in a very specific way - actually listing in detail the most profitable niches she's found. She also discusses her mistakes along the way. If you want to get a jumpstart on the competition, this concise little book will be worth many times its cost to you. I would definitely recommend this book for anyone just starting out or dissatisfied with their online results so far.

The beauty of this compact and well-devised guide is in its precision. No wasted words or unnecessary commentaries. Ms Hall takes you from a standing start and accelerates to the key issues in a heartbeat. The ideas are proven and tested and you can grasp the concepts in one pass. I wish more authors could achieve this economy of style and deliver their message with such clarity. If you're serious about generating great income from your online business, this is a perfect book to move you forwards. It's a winner.

This successful online entrepreneur has conducted extensive research and analysis to provide the top ten most profitable online mega niches. Knowing that I wouldn't have to spend time learning and calculating the pros and cons of all the niches available under the sun was invaluable to me. That's one reason why I bought the book. The author emphasizes that a niche site is the foundation of your online business and must be chosen carefully. What caught me off guard is when she said your niche should not be based on your passion. The big three mega profitable online niches are Health, Relationships and Money. The key is to narrow these down to profitable sub-niches. The book provides you successful sub-niches to pick from. These are time tested and proven winners for the short term and long term. If you want to shorten your learning curve to online business success, you'll need to work smarter not harder. Mega Profitable Niches is an easy quick read that can help you. Recommended.

How To Pan For Niche Gold! The starting point for any successful project is discovering a highly profitable niche. One of my problems, I decide a subject I like and know about, then I write a book about it. I have not taken the time to see if the book will sell. And often the book, although good, bombs, there is no market for the book. It is like trying to sell a Jaguar sports car to a cane farmer. He may have the money but not the interest. This great short book provides the solution to this problem. The first step the expert marketer, Natalie Hall, uncovers is to understand why finding the right niche is so important. You learn the Three Golden Rules to Choosing the Most Powerful Niche, why mess with anything less. And to cut to the chase, next Natalie reveals the 10 most profitable niches. Yes, the all time favorites of book buyers, ready for you to set your sites on success. This short book information packed will jump start your chance for the best selling book or product. Recommended!

This book is great reference guide for brainstorming and finding niches to start a business in. I am an aspiring entrepreneur and one important thing to keep in mind is "What problem am I solving?" and this book lays out 10 clear niches and the problems that the customers in these niches are facing (and also 3 mega niches) I really enjoyed this book and it is already helping me make a little more money already! good work natalie!!

I've been interested in working from home and creating an online business for a long time now, I do make a little from this but I needed more ideas and to research the pros and cons of them to see

what's right for me. This book has is all already done for me, it's all laid out and shows you what the most profitable niches are and how to select which one or ones are right for you. It's has given me a good idea on how to target certain area's as well as some sound advice and tips.
