The History Of Baltimore's Streetcars

Synopsis

Handsomely done history of Baltimore's streetcars, from the horse-drawn cars of 1859 to the light rail renaissance of 1992. The author details the colorful and fascinating story of Baltimore's street railways, covering the companies and car lines, promoters and politicians, the people who worked the cars, and the equipment that made it all work. Originally published as "Who Made All Our Streetcars Go?," this edition has two new chapters on the Metro and the new light rail system. Illustrated throughout with black and white photos and a 16 page color section. Decorative end papers showing system map. 312 pages with index.

Customer Reviews

Written in an easy-to-read style, this history of Baltimore's streetcars covers the entire period of operations from City Passenger in 1859 through close of operations in 1963. The book is an update of the original *Who Made All Our Streetcars Go*, including new material on Baltimore's current light rail system. The book also includes a series of vignettes about streetcars, which bring life to the history portion. In addition, there are hundreds of photographs, illustrations and maps. This book reads more like a story than a history book, and I enjoyed it very much because of the accessible writing style, the subject matter and the photographs. Anyone interested in streetcars or old-time Baltimore should find this book fascinating.

Great book and very pleased. I bought this for a friend for Christmas, who likes the old street cars. I

know he'll enjoy it. A narrative history and lots of pictures of street cars. It arrived on time and is just as described. I would purchase from this seller again.
