# The Heart Of The Five Love Languages

## Synopsis

He sends you flowers when what you really want is time to talk. She gives you a hug when what you really need is a home-cooked meal! The problem isn't your love—it's your love language! Dr. Gary Chapman reveals how different people express love in different ways. Here, at last, is the key to understanding each other's unique needs. Apply the right principles, learn the right language, and soon you'll know the profound satisfaction and joy of being able to express your love—and feeling truly loved in return. --This text refers to the Audio CD edition.

## Customer Reviews

This book is a good synopsis of Gary Chapman's book "The Five Love Languages". I do not think that this book would be appropriate for someone who is not familiar with the ideas in his book. It is a good reminder or "cliff note" for his book, but it does not present his ideas fully. I would recommend his other book be read first, and then if you want a refresher or guide book, "The Heart of The Five Love Languages", would be a good match.

This is a dummed down version of the Five Love Languages. It works, but I wish I would have bought the complete version instead.

My husband and I read this book and fell in love with it and it's message. I ordered books to give as gifts because of the impact that it's had on our lives unfortunately this book is a condensed version of the book we read. It did not provide the counseling sessions that were provided in the book we read

and did not include the "test" in the back of the book to figure out "your" love language. With that being said it's fine for those who have read the all inclusive book, but I would not recommend this version to a first time reader.

This condensed version of the original Five Love Languages book give a great synopsis of the meaning behind each one. I gave this copy to a friend because I kept referring to an old one that I had. This version makes a great gift. The Five Love Languages breaks down how each of us want to be loved and how each of us gives love to others. Since I first read the book I have enjoyed finding out which love language that my loved ones like to receive. I highly recommend it!

It was probably my own faultm but the book is exactly what its title says: The HEART of the Five Love Languages. It covers the gist of the love languages. I wanted the expanded book, not the condensed.

A book that has been very helpful to me in two relationships. It helped me to identify my partner's principal love language, and secondary love languages. In the first relationship, I read the book but my partner didn't. This was not good and the relationship came to a conclusion. In the next relationship, we both read it together, which has produced favorable results. So I recommend that you read this book together with your partner. This is a small, short version, a good introduction. Would make a good gift. This book has saved marriages. It could save your relationship. Give it a try.

A must for all. The love languages are an easy way to understand how each of thinks & feels.it's a must for all relationships. For instance, one of my love languages is receiving gifts. I would occasionally purchase little gifts for my son & wonder why he wasn't excited. He was thankful but not as reactive as I. We tend to believe others speak the same language as us & wonder why they under react. My son love language is affirmations & physical contact. My ex husband love language were affirmations. If we learn another's love language & they learn ours we all feel more loved & appreciated. This equals better relationships & feeling of equality. And its so easy to read & understand. Sometimes its the only relationship "how to" book needed.

I love reading books about marriage and this is one of my favorites! Does and amazing job of explaining the 5 Love Languages but not in a lovey dovey way with no evidence. To many

marriage/love/relationship books these day have a big theory based on nothing. The Heart of the 5 Love Languages is nothing like that. Filled with testimonies and stories of different couples who's marriages drastically changed just by speaking to each other with their correct love languages. If you and your spouse have been feeling a lose of love, I HIGHLY suggest you try reading this book!
