The Fiverr Master Class: The Fiverr Secrets Of Six Power Sellers That Enable You To Work From Home (Fiverr, Make Money Online, Fiverr Ideas, Fiverr Gigs, Work At Home, Fiverr SEO, Fiverr.com)

Synopsis

Fiverr Secrets and Fiverr Gigs From a Whole Group of Power Sellers* * *LIMITED TIME OFFER! 40% OFF! (Regular Price \$5.99) * * *Dear friend, We are a group of six Fiverr power sellers and have all united to reveal the most comprehensive guide on Fiverr domination ever released. We are not playing around and have each made well over 6 figures from our Fiverr gigs and built real businesses around them. One of our six authors, Jimmy Vega, even built a Spanish-English translation business outside of Fiverr simply by following up with his Fiverr clients. We know all the other guides out there. All of them. They are slapped together to make a quick buck from you. We know who writes them; we know where they frequent; we know how they tick. With us, you are at the right place and will be laughing all the way to the bank. This is what you should be doing. We have 22.000 words of content for you, written from experience, time proven and fully actionable, all for less than 1 Fiverr gig. For the first time, we are revealing our Fiverr secrets and dozens of Fiverr gigs that we have successfully used to make money online, sitting in our gardens with our laptops.

Customer Reviews

As a freelancer, I have used Fiverr many times for gigs, even hired freelancers from there for various projects. Most of my work is copywriting and graphics design, but I've known I could use Fiverr more to my advantage. This is a great guide to getting your bearings if you're new, but also embarking on an upward course even if you are experienced. What I found different about this book was the sections ranking types of Fiverr gigs in easy, medium, and hard categories. Smith makes sure you know what to expect as far as work and time requirements at each level, so you won't be surprised. Highly recommended and I am happy to own it as I will return to it again and again.

If you want to know anything about Fiverr - go no further! This book covers a great deal of information in great detail - and there's a lot more to Fiverr than I realized. The authors share all their combined knowledge, so you can learn everything you need to know about setting up your own gigs, and benefit from their experience. These authors know what they're talking about, and they've put in a lot of time and effort to share how you too can make money on Fiverr. You'll be inspired by their success, and open up to the possibilities that exist. I like the way this has long-term potential, and they teach you how to do things correctly and abide by the rules. They don't make any get-rich-quick false promises - these are genuine ways to earn money if you follow their steps. I had no idea there was so much opportunity available on Fiverr, and even if you just want to buy gigs this book will show you how much is on offer there. I highly recommend this book!

In the economy today, more and more people are wanting and needing to make more money just to survive. Many don't even know there are ways of making money at home.Fiverr has been around for a long time and is a great concept but this book really reveals in easy, manageable steps with heaps of tips, how you can start making money and build a profitable business.It is not a "pie in the sky get rich quick" type of dream but practical solutions to making money online, at home with minimal expense. Learn how to stand out from the crowd and how to set yourself aside from the many people already on there.There is good money to be made on Fiverr and this book is a must if you are thinking of going in that direction. It will cut your learning curve down to a bare minimum and get you making money more quickly.

This is a great book for anybody that is starting to work via Fiverr. This is a good step-by-step guide that will definitely help many make money.The reason why I can only give it three stars is because of some of the editing issues. The content is okay, but not worthy of a five star review.I do believe that the information contained here will help many earn an extra income. The information is relevant, researched, and actionable. The tips that I got from this book will definitely help me many times over.

This is a well written book. It is clearly organized and seemed quite complete, truly a master class! The writing style is inspirational and easy to read. The book is not one long pitch and actually has a great deal of useful information. I am glad that I found it. With the things I learned in this book I am confident that I can make a go of it on Fiverr. The authors even gave guidance for how to leverage Fiverr into a larger service business. I can't wait to get started.

Of all "secrets to..." books, this is the very best. This book was clearly written by a team of champions who know the ropes and are actually making money through such gigs. This book will show you step by step and what to do and how to do it and where to go for whatever you may need. I am glad that I got hold of this book at such a time as this. I had been working with fiverr for over 2 years without much success, except one gig once in a while. The greatest thing I love about this book is that you don't even read from beginning to end. You can select parts that you like. I highly recommended this book as helpful to all who work with fiverr and the rest of the small gig sites. Many thanks to the whole team that put this ebook together.

I've been both buying and selling gigs on Fiverr for more than 2 years and figured I pretty much

knew the Fiverr drill. Not so. This book definitely opened my eyes. I discovered so many Fiverr secrets, helpful hints and tips I've never discovered anywhere else including on the Fiverr forums. Patrick Smith shares his own personal experiences, insights and advice in a straightforward manner. He also provides helpful links which opens the door for lots of additional research. I not only appreciated the links, which were all valid, I stopped and clicked on every single one. Not only does Patrick give you advice on the best gigs to offer and why, he advises you about things you should definitely not do. I really appreciated his advice about why you should never have more than one Fiverr account and how to handle all those pesky solicitation Fiverr mails. I also will never be buying certain Fiverr gigs anymore now that I understand how they "work". I rarely take the time to write reviews - good or bad - on the many e books I read on a very regular basis. When I get a bad book, I don't want to say anything because my mom raised me not to say anything if I can't say anything nice. Good books usually have tons of good reviews, so in my mind, they really don't need me to just confirm what everyone else is saying. However, this book was so good, I decided to show my thanks to Patrick by taking the time to let him and future readers know how much I really enjoyed this book. It's well-written, easy to read in one sitting and it's worth every penny if you're serious about building any type of business on Fiverr. Even if you just want to get a bigger bang for your Fiverr bucks, this book will help you know what are the best gigs to buy. Kudos for a great read!
