Charlie Lindsay is an irreverant guy with an unfailling eye. He sees what others don't and makes you grin for the joy of discovery he has had with his camera out in nature searching for the bizarre and wonderful on and around the golf course. Be it a golf ball tucked neatly under a "meadow muffin" or a pair of golf shoes hanging from a tombstone, be prepared for a visual feast where golf and golf courses are the metaphor. What a treat. What a great gift!! I've sent a dozen already and it's early in the day.

Charles Lindsay has captured the true soul of golf with this photographic journey through some of the most interesting places in the world. This book is perfect for the person who truly loves and understands the game of golf. His combination of humor and photographic genius make this a wonderfully entaining book for anyone who has ever played the game. I hope there is a sequel.

WONDERFUL book for golfers... or as a gift to golfers. Photos are crisp and lovely, lies are unimaginable and even inconceivable! Makes those of us who do NOT play golf wonder why others do, and should make golfers offer prayers of thanks that they have never, never had shots to play like these...Wonderfully fast shipment of pristine condition books!

This book's photographs are absolutely brilliant! I first saw the book walking through a store and picked it up only to open up to a page where a golf ball was stuck in a pile of poo. I was flipping pages before you knew it and every shot had me smiling, laughing, reminiscing and just really enjoying the photos. If you are a golfer or going to be buying this book for a golfer I am sure they will get as much enjoyment out of it as I have. Everyone comes into our home and I catch them flipping pages on the book and enjoying it. So don't pass this book up, buy it now!

I bought this book as a gift for a friend, but ended up sharing it with various family before wrapping it up. It was also the hit of the party when it WAS opened. Very entertaining and a book easy to pick up and look at more than once. A hit for golfers or those who enjoy a photo with a message.

I purchased this as a gift for my dad, an avid golfer. When I got it, I was a little disappointed at the sparse text....but the photos are great. My dad LOVED the book....

I bought one for a friend and another for myself. If you play golf, you think that maybe the results of some of your own golf shots may not be so bad. Even if you don't play golf, the pictures are funny and interesting (as long as it is someone else's ball). Well worth the money.

I gave my husband *Lost Balls for Father's Day* and he absolutely loved it. My 16 year old son and I both enjoyed it as well. This book has beautiful pictures - the photography is excellent - that capture some incredible and impossible lies. The scenes are lovely and make one appreciate golf as a form of relaxation. The many precarious positions that are captured make one appreciate golf as an obsession. For those who love and hate this game, this book will be enjoyed.
