Customer Reviews

Keeping Secrets is a short book, under 200 pages, full of twists and secrets that will keep the reader interested till the end. The author does a wonderful job at balancing current day with flashbacks, so the reader can follow along with the story and have the plot slowly unravel before your eyes. The problem with writing a review for this book stems from the fact I can't give too much information or I will spoil the experience of the story. Ebony is called back home to Nigeria and comes face to face with Felix at the airport. Not understanding why he is there offering a ride to her mother's home, she reluctantly accepts the offer and their story picks up from there. She is dealing with the loss of her brother and father from years ago and holds a great amount of guilt for that. After

spending ten years with a man and close to marrying him, that has fallen apart so she is really trying to find her way and pick up the pieces of her life. Felix still reeling from his childhood and the relationship between his mother and father has focused on the banking business of his family. He is successful and an important figure to the society of Lagos, but the board members feel he needs to be married and soon. Reluctant to submit to their demands he finds that maybe he could make something work, even for two years with Ebony, that was until he stumbled across something and ran, leading him to be involved in an accident and in a coma for six weeks. When he comes out of the coma, he finds he can't remember Ebony or anything about their past. This is where the story gets good. The amount of blackmailing, secrets lies and manipulation muddied the water for Ebony and Felix; they are going to have to sort out all of the issues to come to the truth.
