Customer Reviews

I was given this book as a present. I would never have picked it up in a bookstore. I'm very happy with my retirement. I don't need anyone to tell me how to enjoy myself. I read a few pages. Then the whole book, then I read most of it to my wife in bed. It's glorious. Funny, encouraging, inventive. Somehow Stella convinced me that I could try art. I have always harboured a desire to make sculpture. Now I'm going to. I have five drawings already of things I want to make. Stella convinced me to take my desire seriously, but not myself as an artist. I don't care if my productions get into the

Guggenheim or the Venice Biennale. They will express something about me that I want to look at objectively. I might even take up quilt making. (I'm very blokey, so that is a big step!) Great pictures. The chicken and the granny share first prize. Three cheers for Stella. Five stars for her book. Warning: not a good book for anyone who takes him/herself too seriously or thinks they are still engaged in work that will change the world.

I should have read the reviews and description more closely... This was a complete waste of time and money. It has nothing to do with retirement - it's a list of activities. For example: - Get online - Write an app or computer program - Hang out with your grandkids - See the world. It strikes me as someone that sat down and decided to make a list, with no thought given to costs, skills, or physical abilities. Not even remotely useful.

I nearly splurged my drink everywhere reading this. Stella has a hilarious take on the 'best' years of our lives....fearless and imaginative. I don't think I am going to try them all, but it is a shot in the arm for any of us who have greeted this time of our lives with a mild dread. Highly recommended for any of us who take ourselves too seriously; in fact, just highly recommended.

I consider "101 Fun Things to do in Retirement" to be an absolute must read for anyone currently near or already in retirement age. The author touches on so many different activities to do that I'm sure literally any kind of person can find something that's just right for them. What I admire most about this book is that it's expressed through a very light-hearted and humorous manner that truly keeps it entertaining essentially from front to back. Author Stella Rheingold shows readers that your age doesn't have to define your lifestyle and the world of retirement has many creative opportunities and when it comes to having ideas for fun things to do, the sky is the limit. I highly recommend it.

This book offers inspirational advice on how to enjoy life to its fullest. The key to achieving an active and satisfying retirement involves a great deal more than having adequate financial resources; it also encompasses all other aspects of life interesting leisure activities, creative pursuits, physical well-being, mental well-being, and solid social support. Fun reading, useful and informative. Will read again and refer to often as a guide.

Most of us always thinks about retirement, how we wish that when we retire, we can always do what

we love without thinking about how to take life day by day. I saw a lot of retirement plans failed, I saw it from my parents, and surely, I do not want that to happen to me. After reading this book, I got a lot of ideas about what to do when I retire, I love that part about blogging, I find it very amusing that I am already at an old age, but I am still blogging, I find that cool. There are also some interesting things like crochet and sewing. Great read for me.

101 fun things? Hmmh! This is interesting as I am planning to have an early retirement in the future. And I really do enjoy reading this one. Can't wait to apply this in the future. It is already in my list. Before doing that, would give this book as a present to my parents. I'm sure they'll love this too. Thanks for ending up compiling this to-do list in retirement.

I'm still a young man both in age and the period spent in at my job but just got curious at the topic of the book and I have read some interesting stuff on how we can manage our retirement from the advise of joining politics, taking a trip, exploring the spiritual side and many more being explained in depth.
